

## “Extended” Microfilms and Microfiches at the Family History Center, Chimacum

The following is a list of microfilms (films) and fiches at the Family History Center in Chimacum. In preparing this list, we have compared the film number against the on-line catalog at FamilySearch.org.

A few words about how to use this list:

1. There may be more than one item on a roll of microfilm, and the label on the box may not match the description of the item you wish to review. Therefore, go by film number and then check the film completely for the information you want – it may be, for instance, item 12 on the roll.
2. Film numbers under 6000000 are microfilms; above that number are microfiche.
3. The Title below does not provide a complete description. You may want to check the on-line catalog before going to the FHC to get a more complete description of the records.
4. Some of the permanent microfilms are not filed in the “permanent” drawers – they are filed in the current film drawer under the name of the person who ordered the film. So if you can’t find a film, ask.
5. In addition to the fiches listed below, there are many more filed by location. Be sure to look those over if you haven’t already done so.
